Video Streaming over UWB Networks

Maryam Daneshi and Rukhsana Afroz Ruby
Department of Computer Science
University of Victoria

Solutions:
- Ethernet, “No-New-Wires”
- IEEE 802.11, Bluetooth
- **Ultra Wide-Band (UWB)**
  - WiMedia UWB (ECMA-368)
  - High bandwidth, lower power emission

**Video Streaming over PCA**

Why PCA for Video Streaming?
- Maximum Channel Utilization
- Statistical Quality of Service (QoS)

Why DRP for Video Streaming?
- Dedicated time slots for video flows
- QoS guarantee

**System Model**

**Results**
